

Senergy Holdings – Emergency Response Plan (ERP)

1. Purpose

The Emergency Response Plan (ERP) outlines the framework for responding to incidents that may threaten the health, safety, environment, or security of Senergy Holdings' operations. Its purpose is to ensure a prompt, coordinated, and effective response.

2. Scope

This plan applies to all employees, contractors, and visitors at Senergy Holdings facilities and covers scenarios including fires, spills, explosions, natural disasters, and security threats.

3. Emergency Organization

- Incident Commander: Leads overall emergency response.
- HSSE Officer: Provides guidance on health, safety, and environmental aspects.
- Emergency Wardens: Manage evacuations and muster points.
- Medical Team: Provides first aid and coordinates with hospitals.
- Security: Ensures site control and communication with authorities.

4. Key Procedures

- Raise alarm and notify emergency control room immediately.
- Evacuate personnel to designated assembly points.
- Isolate hazardous areas where safe to do so.
- Provide medical aid to injured persons.
- Communicate with external emergency services.
- Conduct post-incident investigation and debriefing.
