

# Fuel Oil (HSFO) – Technical Specifications

## Overview

Senergy Holdings supplies High Sulfur Fuel Oil (HSFO) used primarily in marine fuel and industrial power generation. Our HSFO products comply with ISO 8217 standards, delivering reliable performance across global shipping and energy markets.

## Fuel Oil Specifications

Property	Specification
Standard	ISO 8217
Sulfur Content	$\leq 3.5$ wt%
Density @ 15°C	940–1010 kg/m <sup>3</sup>
Viscosity @ 50°C	180–700 cSt
Flash Point	>60 °C
Pour Point	<30 °C
Carbon Residue	<20 wt%
Water Content	<1.0 vol%

## Applications

- Marine bunkering fuel for ships
- Power plants and industrial boilers
- Petrochemical feedstock
- Large-scale heating systems

## Quality Assurance

All HSFO supplied by Senergy Holdings is tested in certified laboratories to ensure compliance with ISO 8217 and customer-specific requirements. We provide full certification and traceability with every delivery.
